## MERN STACK DEVOLEPER

## OBJECTIVE

As an enthusiastic and highly motivated MERN Full Stack Developer, I aim to leverage my strong foundation in both front-end and back-end development to contribute to innovative projects. With a solid understanding of MERN, JavaScript, HTML, CSS, and related frameworks, my goal is to deliver efficient scalable, and user-friendly solutions. I am eager to join a dynamic team where I can further develop my skill, collaborate on cutting-edge technology, and drive impactful results for the organization.

## SKILLS

### Programming Skills :

- Frontend: HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, React.js
- Backend: Node.js, Express.js
- Database: MongoDB
- Full Stack Development: MERN Stack (MongoDB, Express.js, React.js, Node.js)

### General Skills :

- Problem Solving: Strong analytical skills for identifying and solving coding and design challenges.
- Team Collaboration: Effective in working within a team environment and taking leadership roles when needed.
- Communication: Excellent written and verbal communication skills.
- Project Management: Ability to organize, prioritize, and manage time efficiently to meet project deadlines.

## WORK EXPERIENCE

### SFO Technologies

2022 - 2023

Aerospace and defense inspection

- Experienced in production management system, share point and Microsoft Excel
- Proven ability to learn quickly and adapt to new situations.
- Demonstrated respect, friendliness and willingness to help wherever needed.
- Demonstrated strong organizational and time management skills while managing multiple projects.

## PROJECTS

### E-commerce Application

- Developed a full-featured e-commerce platform using the MERN stack, including product listings, edit, update, delete ,cart, and user authentication.

### Portfolio Website

- Created a personal portfolio to showcase skills and projects using React, with a focus on responsive design and interactive elements.

### College Management System

- Built a comprehensive college management system using the MERN stack, including features like student management, course enrollment, and staff functionalities.
